

Locked Down & Locked Out.

Mr. Premier, please give
us our keys back.

Victorians are being denied their basic right to rent, buy and sell a home. Things are bad enough.

The financial and emotional stress of losing deposits, defaulting on contracts and not being able to secure appropriate living arrangements, is leaving families in distress and endangering lives.

Locking Victorians out of the real estate market means taking away the right to rent, buy, or sell our biggest and most important asset.

Mr. Premier, please give us
our keys back.

Private inspections can be done safely.
